

Distribution System Efficiency: Voltage Optimization (CVR) Workshop

Agenda

- 7:30-8:00 Registration and Continental Breakfast
- 8:00-9:15 Brief History of Voltage Optimization
Does Voltage Optimization Result in Lost Revenue?
Impacts of Lower Voltage on Equipment
Voltage Optimization Misconceptions & Implementation Obstacles
Distribution System Design Guidelines
- 15 minute break*
- 9:30-10:30 System Prerequisites & Data Required for Simplified Voltage Optimization Design
- 15 minute break*
- 10:45-12:00 Simplified Voltage Optimization: Typical Utility Examples
- 45 minute lunch (provided)*
- 12:45-2:35 Simplified Voltage Optimization: Typical Utility Examples (*continued*)
Summary of Simplified Voltage Optimization Measurement & Verification Approaches
- 15 minute break*
- 2:50-4:00 BPA Incentive Offer
Wrapping Up
